

PRESSEMITTEILUNG

International Cooperation in clinical pathology and medical microbiology between Hexalab Serbia and Germany

August 2004

Interlab GmbH, a company of the Staber Group, became owner of 49% of the stocks of Hexalab, Institute for laboratory medicine in Belgrade, according to the contract signed by Mr. Ph Mirjana Paunovic, founder & director of Hexalab and Dr.med. Fritz-Georg Staber, PhD Univ Melbourne.

Besides Interlab GmbH, the Staber Group is holding the following companies, DIAGNOSTIC-LAB GmbH, Pro-Labor GmbH, Med.-Lab GmbH and The Medical Laboratories Dr. Staber & Partner. The Staber Group runs five laboratories in the German cities Munich, Heilbronn, Nürnberg, Dresden and Freiburg. The emphasis of the enterprises is medical laboratory diagnosis. In addition veterinary analyses and hygiene monitoring for the food industry are provided. On average approximately 50.000 tests per day are performed by a staff of 320 people.

Hexalab Belgrade is already the leading medical laboratory in Serbia now. With 80 employees it takes care for approximately 500 patients each day. The decision to become member of the Staber group in Germany was done with the strategic aim to further strengthen the already highly developed professional standards of Hexalab and to extend the services of Hexalab over the whole area of Serbia and Montenegro, as well as Bosnia-Herzegovina.
